

For more than 20 years, BioWorks has been a leader in providing environmentally responsible, safe, and effective solutions to the growing needs of the horticulture and specialty agriculture industries. BioWorks' pesticide products are EPA Registered (unless exempt), and most are OMRI Listed for organic growing.

**RootShield® PLUS<sup>+</sup> Granules** Root Disease Control  
Biological Fungicide – Granules  
OMRI Listed

- Next generation RootShield that now prevents soilborne *Phytophthora*, and improved control of hot season *Pythium* (*P. aphanidermatum*)
- Also controls *Fusarium*, *Pythium*, *Rhizoctonia*, *Thielaviopsis* and *Cylindrocladium*
- One application provides up to 12 weeks of protection
- Costs less than 2¢ per 6-inch pot
- Promotes a healthier root system, increasing root mass potential
- For media incorporation – nursery, greenhouse and vegetables
- 0-hour REI / 0-day pre-harvest interval (PHI)

**RootShield® WP** Root Disease Control  
Biological Fungicide – Wettable Powder  
OMRI Listed

- Drench for use on nursery, greenhouse and vegetables
- Easier mixing – water soluble carrier
- Grows on roots “shielding” them against root damaging fungi
- Releases enzymes that dissolve the cell wall of many fungal pathogens
- Promotes a healthier root system increasing root mass potential
- One application provides up to 12 weeks of protection
- 0-hour (re-entry interval) REI

**MilStop®** Foliar Disease Control  
Water Soluble Broad Spectrum Foliar Fungicide  
OMRI Listed

- Cures powdery mildews / Prevents other foliar diseases
- For use on interiorscape, greenhouse, nursery, woody, herb and field crops
- Potassium bicarbonate-based with added surfactants for performance
- University tested and proven effective
- Fully dissolves in water; no residues, dries quick and clean
- No known resistance – excellent disease management tool
- 1-hour REI / approved by FDA as G.R.A.S. (Generally Regarded As Safe)

**BotaniGard® ES** Insect Control  
Mycoinsecticide – Liquid Emulsifiable Suspension

- Controls adult and larval stages of whitefly, thrips, aphids, and more
- Use in greenhouse, nursery, vegetables, landscape and interiorscape
- Highest spore concentration in a *Beauveria*-containing insecticide
- Unique mode of action – spores infect directly through the insect’s cuticle
- Compatible with many beneficial insects
- 4-hour REI / 0-day pre-harvest interval

**SuffOil-X®** Insect Control  
Spray Oil Emulsion Insecticide, Miticide, Fungicide  
OMRI Listed

- Suffocates and kills eggs, larvae, nymphs and adult soft bodied insects and mites
- Controls fungi including powdery mildew
- Unique formulation stays in suspension better than other oils
- Smaller oil particles provide uniform coverage with less chance of phytotoxicity
- Use on vegetables, nursery, landscape, ornamental and greenhouse crops
- 4-hour REI

**Molt-X®** Insect Control  
Botanical Insecticide / Nematicide  
OMRI Listed

- Use on ornamental greenhouse, shadehouse, interiorscape, nursery and outdoor food crops, shrubs, trees, ornamentals, and turfgrass
- Protects against both foliar and soil-borne pests
- Effective antifeedant – insects will virtually stop feeding before they die
- Leaves no residue on plant foliage and flowers
- Compatible with most commonly used insecticides, fungicides and fertilizers
- 4-hour REI; 0-day preharvest interval
- No phytotoxicity issues on most plants
- Generally safe on beneficial insects
