

Fiber Grow products are 100% biodegradable and eco-friendly containers that enhance customer appeal and increase profits. Developed using recycled paper materials, Fiber Grow products are available in a variety of shapes, sizes and styles, which can be hung near or placed on any patio, pool deck or garden setting.

- Can be composed into nutrient-rich bedding material
- Insulates and allows roots to breathe for healthier plants

Hanging Baskets

- Enhance customer appeal and increase profit potential
- Available in round, square, and beehive shapes with grommets and/or traditional hoop and hanger assemblies
- Clip-on Hangers reduce assembly and labor costs by easily attaching to the 14" and 16" Wire Cage Assembly System and the Swivel Mechanism allows plant material to be rotated according to the light source and to turn in the wind

Hangers

- Clip-on Hangers reduce assembly and labor costs by easily attaching to the 14" and 16" Wire Cage Assembly System and the Swivel Mechanism allows plant material to be rotated according to the light source and to turn in the wind
