Grow a better tomorrow.

## NON-SELECTIVE HERBICIDE SOLUTIONS

### ProDeuce®

Eliminates existing weeds and prevents new growth in cracks and crevices, along fences and foundations and throughout gravel areas.

#### KEY USES

On cracks and crevices in driveways, sidewalks, walkways and patios, along fences, foundations, curbs, retaining walls and edges of lawns, around the base or in mulched beds of well-established (at least 6 months old) plants, shrubs or trees, on gravel areas

#### KEY WEEDS CONTROLLED

Bermudagrass, cheat, chickweed, crabgrass, Kochia, lambsquarters, mustard, pigweed, rye, shepherd's-purse, spurge, thistle (see label for complete list)

**RATE / 1000 SQ FT** 3 - 5.75 oz (broadcast)  
(see label for specific rates)

### Razor®

Razor® is a water-soluble glyphosate formulation for broad-spectrum non-selective control of hard-to-kill weeds.

#### KEY USES

Non-colortive weed control, post-emergent

#### KEY WEEDS CONTROLLED

Many annual and perennial weeds and woody brush (see label for complete list)

**RATE / 1 GAL** 0.67 - 13 fl oz

**RATE / 100 GAL** 64 - 320 fl oz

(see label for specific rates)

### Razor & Burn®

Razor Burn® non-selective post-emergence herbicide combines the fast contact activity of diquat with the systemic control of glyphosate in one high-performance liquid formulation.

#### KEY USES

Non-selective weed control, post-emergent

#### KEY WEEDS CONTROLLED

Many annual and perennial weeds and woody brush (see label for complete list)

**RATE** Consult label

## PLANT GROWTH REGULATOR SOLUTIONS

Nufarm

### Chlormequat SPC

Nufarm Chlormequat SPC helps produce more compact ornamentals with enhanced leaf coloration and stronger stems. Plants treated with Nufarm Chlormequat SPC have better aesthetic properties and are better able to withstand the stress of shipping and handling.

#### KEY USES

Greenhouse ornamentals including poinsettias, geraniums, bedding plants, herbaceous crops, hibiscus, azaleas, other woody flowering crops

#### KEY PERFORMANCE BENEFITS

Grows stronger plants by reducing stem elongation and improving durability (see label for complete list)

**RATE / 1 GAL** 0.22 - 4.34 oz (spray)  
200 - 4000 ppm (spray)  
2.17 - 4.34 oz (drench)  
2000 - 4000 ppm (drench)

(see label for specific rates)
