

Sun Master Films

Call for Drop Ship Quote
Freight Paid over 3000 #

We proudly stock SunMaster polyethelene film covers year around in most standard sizes from our Perrysburg, Ohio warehouse. For best availability and pricing special order / non-stock sizes should be ordered by May 1st to ship with our stock sizes August through October. Direct shipments are available year around with added freight.

SUN MASTER OW CLEAR

UV stabilized clear film that provides excellent light transmission while reducing over-wintering temperature fluctuations.

SUN MASTER IV WHITE 55%

UV stabilized for 4 years of film life while providing 55 % shade. Same superior strength as clear against tears and punctures. Use for over-wintering nursery & perennial stock or as a retail greenhouse cover or anywhere more light diffusion is needed.

SUN MASTER IV

UV stabilized for 4 years of film life. Offers superior strength at folds and against tears & punctures while allowing a high light transmission.

SUN MASTER OW WHITE 70%

UV stabilized white film provides 70% shade. Used on nursery stock structures to reduce over-wintering injury to woody ornamentals. Reduces temperature fluctuations during the over-wintering period.

SUN MASTER IV THERMAL

UV stabilized for 4 years of film life. A premier thermal film with excellent Infra-Red retention (IR) properties allowing for energy savings. Also offers long lasting condensation control and diffused light transmission for optimal growing conditions. Superior strength at folds and against tears & punctures. Best used as the internal poly layer on double layered greenhouse coverings.

FILM TYPE

SunMaster IV (4yr-6mil Clear)	SunMaster OW (3mil White 70%)
SunMaster IV (4yr-6mil White 55%)	SunMaster OW (3mil Clear)
